

## Population

Communities included in the Doyon region for determining population are those communities served by the Alaska Gateway, Delta/Greely, Fairbanks North Star Borough, Galena City, Iditarod Area, Nenana City, Tanana, Yukon Flats, and Yukon/Koyukuk School Districts. Communities are as follows:

Alatna CDP	Eagle Village CDP	Minto CDP
Alcan Border CDP	Eielson AFB CDP	Moose Creek CDP
Allakaket city	Ester CDP	Nenana city
Anvik city	Evansville CDP	New Allakaket CDP
Arctic Village CDP	Fairbanks city	Nikolai city
Beaver CDP	Flat CDP	North Pole city
Bettles city	Fort Greely CDP	Northway CDP
Big Delta CDP	Fort Yukon city	Northway Junction CDP
Birch Creek CDP	Four Mile Road CDP	Northway Village CDP
Central CDP	Fox CDP	Nulato city
Chalkyitsik CDP	Holy Cross city	Pleasant Valley CDP
Chicken CDP	Hughes city	Rampart CDP
Circle CDP	Huslia city	Ruby city
Coldfoot CDP	Kaltag city	Salcha CDP
College CDP	Koyukuk city	Shageluk city
Delta Junction city	Lake Minchumina CDP	Stevens Village CDP
Deltana CDP	Lime Village CDP	Takotna CDP
Dot Lake CDP	Livengood CDP	Tanacross CDP
Dot Lake Village CDP	Manley Hot Springs CDP	Tanana city
Dry Creek CDP	McGrath city	Tetlin CDP
Eagle city	Mentasta Lake CDP	

*Note: CDP is the U.S. Census Bureau abbreviation for Census Designated Place.*

It is estimated that population of the Doyon region has decreased by 1.4 percent (-943 people) between Census 2000 and 2003. Almost 14 percent of the Doyon region's population were identified as Alaska Natives, alone or in combination with some other race, for Census 2000. The Alaska Native population is greater than that shown in the following table, but Census 2000 sampling and suppression of data for communities with small populations causes an undercount of the actual population.

25.6 percent of the Doyon region's total population are of school age (5 to 19 years), but fully 34.5 percent of the region's Native population are of school age.

Sources: U.S. Census Bureau and Alaska Department of Labor and Workforce Development.

Note: Total population includes Alaska Natives, alone or in combination with some other race. Age, gender, and ethnicity information is not available from the Department of Labor and Workforce Development's 2003 population estimates.

## School Inventory and Enrollment

Public school enrollment is the count of students enrolled on October 1, 2003 for the 2003-2004 school year. Therefore, students leaving or entering a school after October 1, 2003 are not reflected in the enrollment figure.

There are nine school districts in the Doyon region, with 82 public schools. Native enrollment was 15.9 percent of the total 23,841 enrollment for the school year 2003-2004. In the 2002-2003 school year, Alaska Native enrollment made up 15.7 percent of a total enrollment of 24,073 students.

Alaska Native “students with disabilities” represented 27 percent (740 students) of all students enrolled with disabilities (2,739 students) in the Doyon region.

Private schools are not required by law to report their enrollments to the Alaska Department of Education and Early Development. However, according to the 10 schools that volunteered this information, 1,143 students were enrolled in private schools. Three private schools reported in the Delta/Greely School District (74 students) and 7 schools in the Fairbanks North Star Borough School District (1,069 students). This enrollment figure is not a complete and accurate count of students enrolled in Doyon region private schools.

## Average Daily Attendance Rates

The Doyon region schools had average daily attendance rates of 94.4 percent for the 2003-2004 school year. This represents a slight increase (+0.4 percent) over the 2002-2003 school year.

The Alaska Department of Education and Early Development measures attendance rates by taking the sum of all days present for all students in a school for the year and dividing this by the sum of all days present and all days absent for all students in a school for the year. This information is not available by ethnicity.

\* Delta Junction Sr. High School was previously known as the Delta Junction Jr./Sr. High School for the 2001-2002 and 2002-2003 school years.

## Teacher Ethnicity

There were 1,170 teachers (including teachers, head teachers, visiting teachers and remedial specialists) in the Doyon region schools for the 2003-2004 school year. Seventy-six teachers were Alaska Natives, four more Alaska Native teachers than in the 2002-2003 school year.

Figure 44  
Doyon Region  
Number and Percent of Teachers by Ethnicity  
2003 – 2004 School Year

Source: Alaska Department of Education and Early Development.

## Educator Turnover

For this report, “educator turnover” includes instances in which a superintendent, principal, or teacher changes his or her job classification within the same school (for instance, a teacher becomes a principal) and/or leaves the school where he or she worked from the 2002-2003 school year to the 2003-2004 school year.

The following table provides educator turnover rates, broken out by superintendents and principals combined and by teachers for the nine school districts that are included in the Doyon region. The category of teachers includes: teacher, head teacher, visiting teacher, and remedial specialist.

Superintendent/principal turnover in the Doyon region was 27.1 percent, and teacher turnover was 21.6 percent.

## List of Schools Making AYP

Forty out of the 82 Doyon region schools made adequate yearly progress in the 2003-2004 school year. Seventeen of these 40 schools had not made adequate yearly progress in the 2002-2003 school year.

The table below show which schools in the Doyon Region made adequate yearly progress for the school year 2003-2004. This table also indicates whether the school had met AYP in the 2002-2003 school year.

Notes: \* Anderson Elementary does not serve any students in grades 3-10. Since this school does not have students to assess in those grades and they must receive a designation, Anderson Elementary's designation feeds into Crawford Elementary.

## List of Schools Not Making AYP

The table below shows which 42 schools in the Doyon region did not make adequate yearly progress for the school year 2003-2004. This table also indicates whether the school had met AYP in the 2002-2003 school year.

Nine of these 42 schools had made adequate yearly progress in the 2002-2003 school year. These schools are either at Level 1, 2 or 3 AYP sanctions. AYP Level Sanctions vary, depending on whether the school is receiving Title I funding. Twenty-one of these 42 schools are Title I funded schools. See Appendix A for sanctions for schools receiving or not receiving Title I funds.

Ryan Middle School (Fairbanks), Ticasuk Brown Elementary (Fairbanks) and Blackwell School (Anvik) were safe harbor schools. Safe harbor is another way for a school to show it is making progress toward the statewide AYP goals. In general, safe harbor means a school can still make AYP, if it reduces the percent of students who score below proficient on exams by 10 percent from the previous year. For example, if a school is 70 percent not proficient, it would need to make a 7 percent improvement to be safe harbor.

Note: (SH) denotes Safe Harbor.

(Avg 2) indicates that for some AYP measures the school used the average of two years' scores in order to meet AYP.

## Benchmark Examinations

School districts included with the Doyon geographic region are the Alaska Gateway Schools, Fairbanks North Star Borough Schools, Galena Schools, Iditarod Area Schools, Nenana City Schools, Tanana Schools, Yukon Flats Schools, and the Yukon/Koyukuk Schools. Denali Borough School district extends into the Doyon geographic area, but this school is included with the Ahtna geographic region.

The table below shows the benchmark examination results for students enrolled in the third, sixth, and eighth grades. Alaska Native students have significantly lower test results for all grades and subjects than do students of all other ethnicities combined.

Figure 45  
Doyon Region Benchmark Examination Results by Ethnicity, 2003 – 2004 School Year

Source: Alaska Department of Education and Early Development.

Comparisons of Doyon region benchmark examination results between the 2002-2003 and 2003-2004 school years for Alaska Native student performance are found in the table below. The two school years may not be directly comparable because some data were withheld, if they might have revealed an individual student’s performance. Other variables may include opening and closing of schools within regions and varying student populations for Grades 3, 6, and 8.

Table 96  
Doyon Region Benchmark Examination Results for Alaska Native Students  
2002 – 2003 and 2003 – 2004 School Years

School Year	Grade 3			Grade 6			Grade 8

## High School Graduation Qualifying Examinations

Students are required to pass the Alaska High School Graduation Qualifying Examination in order to receive high school diplomas. Students can begin taking the exam in their sophomore years and are eligible to retake the exam as juniors and seniors for any un-passed portions of the test. Students are offered retests in both the spring and fall of their junior and senior years. Those who do not pass the High School Graduation Qualifying Examination will be denied diplomas and will receive Certificates of Achievement instead.

In the Doyon region, significantly lower percentages of Alaska Native students were proficient in the subject areas tested, when compared to all other students.

Note: Proficiency is based on a percent of students who took the test and is not based on enrollment.

## High School Graduation Rates

In the 2003-2004 school year, the Doyon region graduation rate for all students was 62.3 percent. Alaska Native students graduated at a rate of 51.9 percent, compared to 64.2 percent for all other ethnicities combined.

A graduate is defined as a student who has received a regular diploma from a state- or district-approved education program, as evidenced by receipt of a secondary school diploma from school authorities. Any student who receives a diploma under a waiver from the competency examination required in AS 14.03.075 (a), as specified by the state board, is considered to be a graduate. This does not include an individual who receives a Certificate of Achievement.

The No Child Left Behind Act requires the Alaska Department of Education and Early Development to adopt a cohort method for determining high school graduation rates. Beginning in the 2002-2003 school year, the Department switched to a new cohort method to measure the relative percent of students that graduate from high school in four years. For the 2003-2004 school year graduation rate indicator, the cohort includes all students starting high school (Grade 9) in the 2000-2001 school year through their graduation scheduled four years later in the 2003-2004 school year.

The graduation rate formula used by the Alaska Department of Education and Early Development is:

$$\begin{array}{l}
 \text{Number of Graduates (2003-2004)} \\
 \hline
 \text{Number of Graduates (2003-2004)} \\
 + \text{ Number of Continuing 12th Grade Students (2003-2004)} \\
 + \text{ Number of 12th Grade Drop-outs (2003-2004)} \\
 + \text{ Number of 11th Grade Drop-outs (2002-2003)} \\
 + \text{ Number of 10th Grade Drop-outs (2001-2002)} \\
 + \text{ Number of 9th Grade Drop-outs (2000-2001)}
 \end{array}$$

It is important to note there are some limitations with this new methodology. For instance, a student that graduated in five years, rather than four years, would be counted in the next cohort of students. A student that graduates in three years, instead of four, would be counted in the prior cohort. Additionally, in the 2000-2001 and 2001-2002 school years, student-level information was submitted with anonymous information that could not be linked directly with specific students. The Department had no way to check for duplication or to see that the ethnic codes are valid for those two years.

Notes: \* Continuing 12th Grade students include students who did not graduate in the 12th year but remained enrolled in school to complete course work toward graduation in the following year(s).

\*\* Includes a sum of total student drop-outs from the 2000-2001, 2001-2002, 2002-2003, 2003-2004 school years.

\*\*\* Graduation rates are calculated using the following formula: Number of Graduates ÷ (Number of Graduates + Number of Continuing Students + Number of Drop-outs (2000/2001 to 2003/2004)).

## Drop-Out Rates

A drop-out is defined as a student who was enrolled in the school at some time during the school year and left the school at some time during that same school year.

Doyon region drop-out rates are displayed in the following table for the 2003–2004 school year. Reporting, calculating, and interpreting drop-out rates are subject to error and should be viewed with some caution, when reported at the region and school district levels. Drop-out rates do not directly correspond to high school graduation rates because graduation rates use a cohort method of calculation (over the past four years), rather than a single-year event, and do not include 7th and 8th grades.

The drop-out rate for Alaska Native students in the Doyon region for grades 7 through 12 was 8.4 percent for the 2003-2004 school year. This compares to all other students in the Doyon region who dropped out at a rate of 4.9 percent.

When compared to 2001-2002 school year drop-out figures, it appears that drop-out rates have decreased for the region.
