TITLE: Declaration for Climate Change State of Emergency in Alaska

WHEREAS, The First Alaskans Institute Elders & Youth Conference is the largest statewide convening of Alaska Native Elders and youth representing our diverse Alaska Native cultures and language groups in order to enhance and perpetuate the unique spirits and identities of our peoples; and

WHEREAS, The purpose of the Conference is to connect Elders and youth for cultural knowledge transmission, strengthen statewide relationships, amplify the power of our participants as leaders today, and advance solutions to challenges faced by our Native peoples and our communities; and

WHEREAS, We the indigenous youth and future leaders of Alaska are concerned for the survival of our future generations, ways of life, traditional lands, intact ecosystems, emotional, spiritual, and mental well-being due to Climate Change; and

WHEREAS, Our indigenous lands and waters are warming at twice the rate as the rest of the world. Many communities across the state face hardships directly correlated with Climate Change, such as the extreme warming temperatures which melt the permafrost, causing mass erosion, resulting in the relocation of entire communities along with devastating the natural habitats of our animal and plant relatives. These impacts have disrupted indigenous seasonal hunting and gathering traditions; and

WHEREAS, In recent years we have lost community members due to unpredictable and unsafe ice conditions, have seen the die off and disease of seals, salmon, migratory birds, shellfish, whales, polar bears, and recognize that these are also our relatives; and

WHEREAS, We, the Alaska Native youth, are asking our tribal leaders to consider, as is traditional, the future of their grandchildren and the generations to come.

NOW THEREFORE BE IT RESOLVED by the participants of the 2019 First Alaskans Institute Elders and Youth Conference that we reinstate a climate action leadership task force within Elders & Youth and the Alaska Federation of Natives to advance indigenous voices and advocate for strong climate policies that will ensure the survival of future generations; and

NOW THEREFORE BE IT FINALLY RESOLVED that this resolution, once accepted by the participants, be transmitted to the Alaska Federation of Natives for approval to declare a state of emergency on Climate Change.
